

2020 Proposed Trips in Brief

The trips listed below are what we have in mind for 2020. As usual many of the trips will depend on permissions from Land Councils and other Aboriginal bodies.

"Anne Beadell Highway"

Currently the most popular of Len's roads, the Anne Beadell Highway is a 1350 km link between Coober Pedy & Laverton in the west. This road was made over quite a few years and there is plenty of Len Beadell history from his diaries written as the road was cut with dozer & grader. We'll also detour to other places of historical interest along the way as the Great Victoria Desert was travelled by many of the famous explorers such Giles, Carnegie, Wells & Hann.

- May 2020 - 15 days - self catered
- Coober Pedy S.A. to Laverton W.A.
- Average travel of 120 kms per day
- Diesel, Unleaded & Camper Trailers welcome - No previous desert experience required

"Beadell Tracks Wanderer"

The Gunbarrel & Gary Highways & the Gary Junction & Sandy Blight Junction Roads, a combination of the famous Len Beadell roads guided by Beadell family historian Connie, of Connie Sue Highway fame. Travel with Connie & Mick for a steady informative look at the heart of Australia. An area made unique by Aboriginal culture & explorers from long ago now largely forgotten.

- June 2020 - 20 days - self catered
- Carnegie Station W.A. to Ayers Rock/Yulara Resort N.T.
- Average travel of 130 kms per day
- Diesel, Unleaded & Camper Trailers welcome - No previous desert experience required

"Centre to the South"

This is an interesting trip for adventurers with a keen sense history and a liking for remote camping. Using both famous desert roads & forgotten wheel-tracks through outback wilderness areas we travel from the Red Centre through the Great Victoria Desert to the vast Nullarbor plain & the Myall woodlands that are some of the best camping in the country. Another Beadell Tour riddled with history and ever changing scenery.

- August/September 2020 - 24 days - self catered
- Kulgera N.T. to Coorabie Farm Stay S.A.
- Average travel of 120 kms per day
- Diesel, Unleaded & Camper Trailers welcome - No previous desert experience required
